

EPV - 21ST SYMPOSIUM

AAV & Gene Therapy research with NHP

September 21st - 22nd, 2023

London UK

<https://www.epvassociation.org/>

1st call for speakers :

AAV & Gene Therapy research with NHP

September 21st - 22nd, 2023

London UK

<https://www.epvassociation.org/>

2023 main subject is :

AAV & Gene Therapy research with NHP

We will be talking about : the future of Gene Therapy in human medicine and the research done with NHP and the unique advantages of research with this species .

We will hear about the advances in Gene Therapy and the challenges and risks with this innovative type of research.

We will accept as always also presentations on any other topic related to NHP : case reports, research, breeding, welfare, enrichment and legislation updates.

This will be a practical and very interesting & informative seminar for all of us and will allow us to be updated on where modern biomedical research is heading.

If you are interested in participating in the scientific program, contact directly : Moshe Bushmitz at : moshe@bushmitz.com
